

Community Values Youth

ASSET #7

Community Values Youth

Youth quickly sense where they are wanted

and where they aren't.

Do the young people around you have opportunities to participate, serve, lead, and make decisions within the community?

Do these young people feel supported by the community?

Take a step towards turning our community into a place that shows appreciation of its young people!

In the month of October CNP youth will be making miniature trees and putting notes on them describing ways that they contribute to the community. Local businesses will display these at the end of the month to show everyone how helpful our young people can be. If you would like to make a tree of your own to display at a business or outside your home see the link below for instructions and don't forget to attach a note about what you value about CNP youth!
